# PACIFICATION IN CUBA

So-Called but It Really Does Not Exist.

TROOPS SPANISH DEFEATED.

Insurgents Cross the Trochs Without Hindrance - Filibustering Expedition Lauded-McKinley Proposes Autonomy For Cuba-An Ultimatum to Spain That May Cause a War With This Country.

New York, June 11.—A dispatch to The Journal from Havana says: Four thousand insurgents from the eastern department, led by Generals Rodriguez and Quintin Banderas, have crossed Matanzas, entered Havana province south of Madruga, and are now menacing the town of Guiles.

Another Cuban expedition bringing arms and munitions from Florida has safely run the Spanish blockade and disembarked near Buchranao, about 10 miles east of Guanabacoa. An insurgent force under Rafael de Cardenas met the filibnsters and escorted them with their cargo into the mountains of Casignas, where General Alejandro Rodriguez, chief of Havana province, awaited the convoy. Dr. Cusaso is said to have come on this expedition.

Fonsdeviela's Spanish column, marching to attack Cardenas, was met by a rebel detachment, led by Colonel Aran-guren, and defeated after four honrs' fighting, near San Francisco de Paula, with a loss of 19 killed and 46 wounded, including Lieutenant Colonel Benedicto, second in command.

In another engagement npon the La Lnisa sugar estate, near Port Cabanas, between Mariel and Bahia Honda, the Spanish column had 30 killed and upward of 100 wounded. This was in Weyler's so-called pacified districts. The insurgents, after the fight, retired into their fortified positions in Maceo's old stronghold, the Rubi hills. Weyler telegraphed ordering six columns to march against them, but not a word of the defeat at La Luisa has been telegraphed to the war department at

La Reforma is in Weyler's so-called pacified province of Santa Clara.

AUTONOMY FOR CUBA. McKinley's Idea For the Settlement of

the Trouble.

NEW YORK, June 11.—A Washington special to The Herald says: "Autonomy for Cuba, positive home rule for the island, is President McKinley's plan for the settlement of the vexing question. The president's questions put to Mr. Calhonn all tend to indicate this as his

"The president asked if General Gomez and the patriots, who have declared that they would accept nothing bnt independence, would take autonomy, with local self-government and freedom from Spanish taxation, and Mr. Calhoun replied that he believed the preponderance of the sentiment of the Cuban people would compel General Gomez and the other leaders of the patriots to accept such a proposition.

"The belief is growing here that Spain would be willing to accept such a solution of 'he difficulty. The rebellion in Cnba is costing Spain from \$8,000,000 to \$10,000,000 a month, and the Cuban debt is now \$400,000,000. This constitutes a great stumbling block to any plan of autonomy. Of course Spain would not grant antonomy without unloading the debt. However this may be, the clear impression made by the president's questions was that he would try to bring about home rule for Cnba."

DISGUSTED WITH WEYLER. The Military Governor of Havana Has Re-

signed and Will Go to Spain. NEW YORK, June 11.—A dispatch to The Journa. from Havana says: Another of Weyler's generals, Lono, inspector general of the civil guard forces in Cnba and military governor of Havana, has resigned in disgust, and expects to leave the island by the trans-

Spain direct. Lono regards Weyler's early recall as quite assured, and thinks Blanco or Lopez Dominguez will come out as his successor. Both are equally intimate with Martinez Campos to obtain whose support in the recent ministerial crisis Canovas is known to have made inportant concessions.

ULTIMATUM TO SPAIN.

It May Bring on a War Between the United States and Spain.

New York, June 11.—The Journal says President McKinley is preparing an ultimatum to Spain, the vital points of which are:

First-Spain has lost control of the island of Cuba.

Second-Spain has failed and is pow-Second—Spain has failed and is powerless to protect the lives and property THOUGHT TO BE SANE of American citizens.

Third-Spain has failed to comply with its treaty obligations.
Fourth—Something has got to be

The Journal thinks the document may bring on a war with Spain, and that McKinley does not care if it does. IS SHE GOING TO CUBA?

SUGAR SCHEDULE COMES UP. Number of Speeches in the Senate, but Not of General Interest.

WASHINGTON, June 11 .- The long deferred detate on the sngar schedule of the tariff bill came on abruptly at 1 o'clock yesterday, after the senate had disposed of the cereals in the agricultural schedule. The interest in the sugar schedule had been whetted for weeks, and aside from the fact that more revenue is derived from sugar than from any other article, there was the added interest due to the sensational charges made of late within and without the senate concerning irregularities in connection with the progress of the schedule. But the debate failed to develop any dramatic incidents.

Senators and spectators soon lapsed into a state of indifference, as the speeches dealt with a labyrinth of technical details, of vital interest to the sugar refiner and expert, but not to the general public. Mr. Jones of Arkansas opened the debate, to some extent answering Mr. Aldrich's statement on the sugar schedule. It was argumentative skull removed during the pendency of tory features. The senator held that the present case, but it availed nothing the rates proposed gave the refiners an excessive differential, and pointed out how they had thrived on the one-eighth differential of the present law.

Mr. Vest severely criticised the sugar trust and argued that the rates were a further tribate to its vast resources.

No final action was taken on any feature of the schedule, further than the withdrawal of the original senate committee amendments. This leaves the house provisions of the bill, with an amendment increasing the hoase differential from 875-1000 to 95-100 cents per pound.

Early in the day, Mr. Tillman of South Carolina made a lively speech in favor of the amendment giving an export duty on agricultural products. He took occasion in this connection to critieise his Democratic associates, who were given a strict and literal construction to the Democratic doctrine of a tax for revenue only. The bounty amendment was defeated, 10-59.

At 5:10 the senate hold an executive session and then adjourned.

resolution was passed. Mr. Payne (Rep., N. Y.) then moved an adjournment, which was resisted by the minority. The rising vote resulted in a tie, 87 to 87. Speaker Reed saved the motion by voting aye.

## CLAY LOST OUT.

The Kentuckian Didn't Get the Swiss Mission, Although He Had a Promise of it From McKinley.

Washington, June 9.-In the appointment of John G. A. Leishman, of Pennsylvania, to-day to be Minister to Switzerland, the President has turned down Brutus J. Clay, of Kentucky. It is said that after the election Mr. Clay went to Canton to see the President, and there put in a claim for this particular position. Mr. Clay had done good work for the party, and the President seemed to appreciate that fact. A gentleman with whom Mr. Clay recently talked here, said that Mr. Clay told him the President promised him the place. After the lnauguration Mr. Clay again saw Mr. Mc-Kinley, and asked him if he should file any papers. He was told that it was not necessary, but friends suggested that he Mr. Clay accordingly filed his recommendations.

The Kentucky Republicans are disappointed over the appointments made today. In addition to the turning down of Brutus Clay another nomination was made that lessens the chances of Dr. Hunter. It is said that he had been promised either the mission to Chile or Peru. To-day a Washington man was nominated to go to Chile and it is semiofficially stated that State Senator Sayler, of Pennsylvania, is to be sent to Peru. WILLIAM DICKSON and John Kitter, who had not been on good terms for some time, concluded to fight it out yesterday afternoon. They met in Grave alley, just south of Second street, and, after throwing a few rocks, pulled their \$4,000 more than Mr. S. B. Chunn's bid. knives and proceeded to carve each other. When the duel ended, Dickson was suffering from five wounds, two in the neck, one behind the right ear, one over the righteear severing an artery, and one across the crown of the head. Kitter was stabbed in several places, the most serious wound being ln the right side.

Dickson managed to walk to Dr. Yazell's office, and would have bled to death had he not received help when lie did. The doctor dressed his wounds and he has been getting along very well, with the chances now in favor of his recovery. Kitter's wounds were dressed by Dr. Smoot, and he also is doing very well.

Dickson has been loafing about Kitter's home, and the latter thought he was too attentive to his (Kitter's) mother. Kitter had warned him to stay away, but Dickson failed to heed the warning. Dickson has figured ln one or two cutting scrapes, and is badly searred up.

The people of Kentucky will be called on to vote at the election in November on an amendment to the constitution which reads as follows:

The General Assembly may, by general laws, provide for taxation by municipalities of properly other than lands and improvements thereon, based on incomes, licenses or franchises, which may be either in addition to or in lieu of ad valorem taxes thereon.

The object of this amendment is not to interfere in any way with that mode of levying taxes for State purposes, but to give all cities and towns, with the approval of the Legislature, the right of self-government, so far as the levying of taxes for town and city purposes is concerned. Some people have supposed ies of the first class; but that is a mistake. It applies to all cities and tewns, and is very important to them. The city and town taxes are very much heavier than State taxes. It costs more to run the city of Louisville than it does to run the State government, and the system of taxation, which may work very well when applied to State taxes, when enforced in regard to the much heavier local taxes, drives out manufactories and commerce, and is destructive to industry and enter-

According to Section 256 of the State Constitution, this amendment, passed at the regular session, and having had provision made for taking a vote on it at the extra session recently adjourned, will be before the people at the November elcction, which is the next general election for members of the House of Representatives. If the majority of votes cast for and against the amendment shall be for the amendment, then it will become part of the constitution.

CONDITION OF CROPS.

Reports Made to the Agricultural De-

partment at Washington. Washington, June 11.—Statistician Robinson of the agricultural department has issued the following cereal crop report. Mr. Hyde, the new statistician, not taking charge until after this

The report of June i, consolidated from the returns of the township, county and state corfespondents of the department of agriculture, makes the acreage of winter wheat at present, growing after allowance for abandonments, 94.6 per cent of the area harvested last year, or 89.9 per cent of the area sown in the fall of 1896. This, in round

numbers, is 21,562,000 acres. The percentages of winter wheat acreages upon the basis indicated of the principal winter wheat states are as fellows: Ohio, 97; Michigan, 99; Indiana, 94; Illineis, 51; Missouri, 90; Kansas, 97; Califernia, 105. In New York, Pennsylvania, Delaware, Virginia, North Carolina, Alabama, Texas, Arkansas, Tennessee, West Virginia, the area shown compared with that that the amendment applied only to cit-ies of the first class; but that is a mis-increased. The condition of winter wheat has fallen since report of May 1, being 78.5 per cent against 80.2 on that date, a decline of 1.7 points. The condition of June 1 last year was 77.9. The percentages of the principal states are: Ohio, 88; Michigan, 79; Indiaua, 60: Illinois, 38; Missouri, 45; Kansas, 88; California, 73,

The percentage of spring wheat area for the entire country, as compared with that of 1896, has been increased, being 110 per cent of last year's acreage. The total area of spring wheat sown is therefore, in round numbers, 13,700,000 acres, and the combined winter and spring area is 34.569,000 acres, or 99.9

per cent of that harvested in 1896. The condition of spring wheat shows an average for the whole country of 89.6 per cent, against 99.9 per cent on June 1, 1896. The condition of all wheat is 82.7, against .87.6 per cent the same last year. The conditions of spring wheat for the principal spring wheat states are as follows: Minnesota, 94; Wisconsin, 90; Iowa, 90; Nebraska, 89; South Dakota, 78; North Dakota, 91; Washington, 100; Oregon, 98. The preliminary report places tho acreage of oats at 93.3 per cent of last year's area and makes the condition 89 per cent. against 98.8 last June.

Acreage of rye is 93 per cent of last year's, condition of rye, 89.9 per cent. Acreage of barloy, 92.2 per cent of last year's, condition of same June 1, 87.4 per cent. Acreage of rice, 103; 1 per cent condition 98.8 per cent.

Reports from the consular officers of the United States in Manitoba and western Ontario indicate good crops of both winter and spring grain. The spring acreage in the Winnipeg consular district is about 15 per oent greater than last year, while crops are about 10 days earlier. Reports from eastern Ontario and Quebec are less favorable. Inquiries made by the United States

minister to Argentina tend to show that this year's wheat acreage will not exceed last year's and may be much less. Fruit throughout central and western Enrope has been considerably injured

by frosts. Wheat growth has been generally retarded by the backward season, and in Spain, Italy and Hungary its quality is deteriorated by persistent rains. Condition reported improving in northern Europe, also in Roumania, Bnlgaria and and parts of Russia, but not in Poland or the sonthwestern provinces. Deficiency of the crop in France now estimated from 35,000,000 to 55,000,000

PRIZE FIGHTERS DISMISSED.

Maher and Sharkey Had Not Violated Any Law.

New York, June 11.—Peter Maher and Thomas Sharkey, the heavyweight pngilists who were arrested Wednesday night during their fight at the Palace Athletic club, were discharged by Magistrate Cornell in the Harlem police court yesterday. The magistrate admitted that the conduct of the men in the seventh round might have been disorderly, and said he was glad they had been locked up, but that, nevertheless, as far as he could see, there had been no violation of the Horton law.

The case being called, Magistrate Cornell invited Inspector McLanghin to tell him all about the case. The inspector said he believed the law was violated by the men. There was slugging and knocking down, and he believed it his duty to stop them. Magistrate Cornell stated that he had read Chicago.......302102200-10151 the account of the fight, and while he Batterios-Johnson, Fifield and McFarbelieved the inspector was perfectly right in separating and arresting the men, he did not think they could strictly be held for taking part in a prize fight. A traveler who has just returned from there, reports having seen numbers of dead bodies lying about unattended to. In one large town half

yond certain parts, owing to sections made impassable by swollen rivers. Along the route to smaller towns nnmbers of bodies lay decomposing, while the sky was black with vultures.

PITTSBURG, June 11.—The strike at Jones & Laughlin's American works has been declared off by the strikers' committee, and all the old men who can get work will go back at the reduction.
